Kansas Underground Garage Unit

Underground Garage Unit

Our Kansas Underground Garage Unit offers below ground safety during the strongest storm. It is installed right in your own garage where it is easy to access yet doesn't use your valuable indoor space. You never have to go outside into the path of the storm to get to your shelter.

Our Underground shelter meets or exceeds FEMA requirements for impact, design pressure uniform load structure pressure. Installation can usually be accomplished in 4-8 hours, dependent upon the size you choose. The small size fits 7 people; medium will hold 11; and
